

Can you find thirty (30) books of the Bible in this paragraph?

1 This is a most remarkable puzzle. It was found in an airplane
2 seat pocket by a gentleman on a flight from Los Angeles to
3 Honolulu, keeping him occupied for hours. He enjoyed it
4 so much he passed it on to some friends. One friend from
5 Illinois worked on this while fishing from his john boat. An-
6 other friend studied it while playing his banjo. Elaine Taylor,
7 a columnist friend, was so intrigued by it she mentioned it
8 in her weekly newspaper column. Another friend judges the
9 job of solving this puzzle so involving, she brews a cup of tea
10 to help her nerves. There will be some names that are really
11 easy to spot. That's a fact. Some people, however, will soon
12 find themselves in a jam, especially since the book names are
13 not necessarily capitalized. Truthfully, from answers we get,
14 we are forced to admit it usually takes a minister or a scholar
15 to see some of them at the worst. Research has shown that
16 something in our genes is responsible for the difficulty we
17 have in seeing the books in this paragraph. During a recent
18 fund raising event, which featured this puzzle, the Alpha
19 Delta Phi lemonade booth set a new record. The local paper,
20 The Chronicle, surveyed over 200 patrons who reported that
21 this puzzle was one of the most difficult they had ever seen.
22 As Daniel Humana humbly puts it, "The Books are all right
23 here in plain view hidden from sight." Those able to find all
24 of them will hear great lamentations from those who have to
25 be shown. One revelation that may help is that books like
26 Timothy and Samuel may occur without their numbers. Also,
27 keep in mind, that punctuation and spaces in the middle are
28 normal. A chipper attitude will help you compete really well
29 against those who claim to know the answers. Remember,
30 there is no need for a mad exodus; there really are 30 books
31 of the Bible lurking somewhere in this paragraph waiting to
32 be found.
